

February 6, 2024

Families,

I am writing with an update on some repair work being done at A.J. Smeltzer Junior High.

Repairs to the school roof are almost complete. Crews are in the final stages of this project and are expected to finish in the coming weeks.

As shared earlier, work on the exterior brick wall facing Kaye Street is in progress and is expected to be completed by the end of February 2024. We were also able to include additional repairs to the exterior gym wall, and the replacement of the gym floor, as part of this project. The entire project is expected to be completed before the end of March 2024.

Learning will not be impacted from the ongoing repair work, and we will continue to provide regular updates as necessary.

If you have questions or concerns, please contact the HRCE Operations Services team at hrceoperations@hrce.ca.

Thank you for your patience and understanding.

Sincerely,

Kavita Khanna P.Eng., MBA
Director, Operations Services
