

May 13, 2024

Families,

I am writing with an update on the drinking water at Tantallon Senior Elementary.

Routine water test results still show higher than normal levels of lead and/or copper in **some taps and a drinking fountain.**

Please be assured that bottled water stations will continue to be available to students and staff and all taps are safe for hand washing.

We are working on a solution to repair the drinking fountain and will then retest the water to ensure safety standards are met.

[Click here](#) to view our most recent water test report.

We appreciate your patience and cooperation. If you have any questions or concerns, you may contact HRCE Operations Services at [hrceoperations@hrce.ca](mailto:hrceoperations@hrce.ca).

Sincerely,

Kavita Khanna P.Eng., MBA  
Director, Operations Services  
Halifax Regional Centre for Education
