

May 9, 2024

Families,

I am writing to let you know that we have determined a location for the two modular classroom structures announced on [April 15, 2024](#).

Both structures will be placed in the side parking lot on the elementary end of the building. Students and staff at West Bedford School will make use of these additional 12 classrooms in the fall to support enrolment growth for the 2024-25 school year.

The Nova Scotia Department of Public Works will begin site work in the coming weeks to prepare for the 2024-25 school year.

Timeline and Important Information

- A large section of the side parking lot on the elementary end of the building will be blocked for the remainder of the school year, **beginning as early as May 15**.
- A two-way driveway connection will be temporarily installed near the high school basketball courts so vehicles can access the back of the building.
- **All work areas will be fenced in to ensure the safety of students and staff.**

Please be assured that most of the work will take place after school hours to minimize any impact on learning.

We appreciate your patience and cooperation as we begin this project. If you have any questions or concerns, please contact HRCE Operations Services at hrceoperations@hrce.ca.

Sincerely,

Kavita Khanna P.Eng., MBA
Director, Operations Services
Halifax Regional Centre for Education
