

March 18, 2024

Families,

I am writing with an update about our gym floor replacement project.

We anticipated the work would be complete before the end of March; however, contractors discovered mercury in the existing floor materials. The project is now delayed until the summer.

Please be assured that the floor, in its current state, **does not pose any risk to the health of students and staff** and the gym will reopen for regular use this week. An air test has been completed and the results meet all appropriate standards for normal operating conditions. The floor will be monitored to ensure continued safety. If anything changes, you will be notified.

Thank you for your patience and understanding. If you have any questions, please don't hesitate to contact me.

I hope you enjoyed your March Break. We look forward to seeing everyone tomorrow!

Ryan Lamont
Principal
