

August 22, 2023

Families,

I am writing to update you on some upcoming improvements scheduled for St. Joseph's A. McKay Elementary (current school site at 1589 Walnut Street).

Outdoor Learning Space

Starting this week, work will begin outside on the school grounds. We will be adding an outdoor learning space, which will include re-paving the playground to improve accessibility. We will also be replacing three basketball nets.

While most of this work will be completed before the start of school, some work may still be required during the first few weeks of September.

Boiler

Last May, [we let you know](#) that we would be investigating and planning upgrades to the heating system.

The tender for this project is closed, and work will start later this fall. Any major work will be scheduled for after hours and weekends.

Please be assured that learning will not be impacted during either of these projects.

If you have questions or concerns, please contact the HRCE Operations Services team at hrceoperations@hrce.ca.

Sincerely,

Kavita Khanna
Director, Operations Services
Halifax Regional Centre for Education
